Notes to Physician:

Treatment is symptomatic. If ingest and patient is not vomiting, gastric lavage should be performed. For emergency measures, give activated carbon followed by emesis and gastric lavage.

Section 5: Fire-fighting Measures

Suitable Extinguishing Media: Carbon dioxide (CO₂), chemical foam, dry chemical, water.
Specific Hazard During Fire: Technical produces toxic fumes on decomposition in a fire
Special Protective Equipment: Fire fighters should wear full-faced self-contained breathing apparatus and protective clothing.

Section 6: Accidental Release Measures

Personal Precautions: Do not handle until all safety precautions have been read and understood. Wear appropriate protective equipment as per required
Environmental Precautions: Avoid release to the environment
Method for Cleaning Up: Wear protective clothing as indicated in Section 8. Evacuate non essential personnel. Collect the spill into waste container for disposal. Wash the contaminated area with a little water and detergent. Adsorb with inert material such as clay or earth. Collect into the same container for disposal. Prevent the spillage from entering local drainage system.

Section 7: Handling and Storage

Precautions for Safe Handling: Do not handle until all safety precautions have been read and understood. Wear appropriate protective equipment as required
